### Buffet Style Packages

Our staff will take care of setting up your dinner service so everything looks beautiful and ready for your guests. Once your event begins, you're welcome to manage any additional refills or reloading as needed; however, our team will not provide further assistance during the event, as these meals are classified as self-service buffets. At the end of the evening, you're welcome to take any leftovers you'd like to keep. Please leave any items you'd like us to dispose of as they are, and be sure to extinguish all Sterno candles before departing.
